DIGITAL COMPETITIVENESS

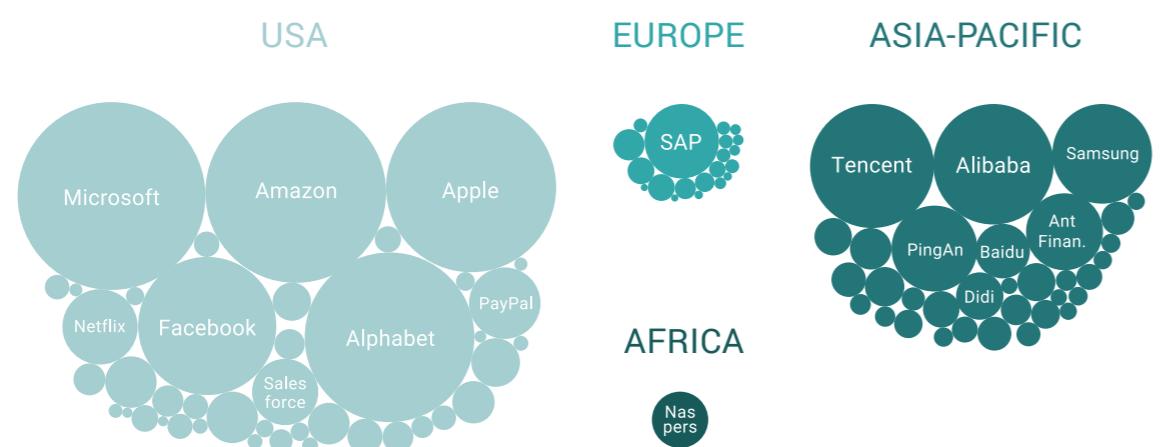

BY ESCP EUROPE BUSINESS SCHOOL

FACTBOOK DIGITIZATION

20 Facts on the Status Quo of
Digitization in Germany

» Europe is lagging behind other regions in terms of digital platforms

The 100 most valuable platforms (market value in billions of USD, most recent known financing rounds, May 31, 2019)

Source: Netzoekonom.de (2019)

» Three US companies are more valuable than all 763 publicly traded German companies combined

All 763 publicly traded German companies combined

2.027

3.008

Market value in billions of USD as of August 31, 2019

Source: Handelsblatt (2019)

» The largest companies in Germany
are comparatively old

Germany

114
years

China

34
years

USA

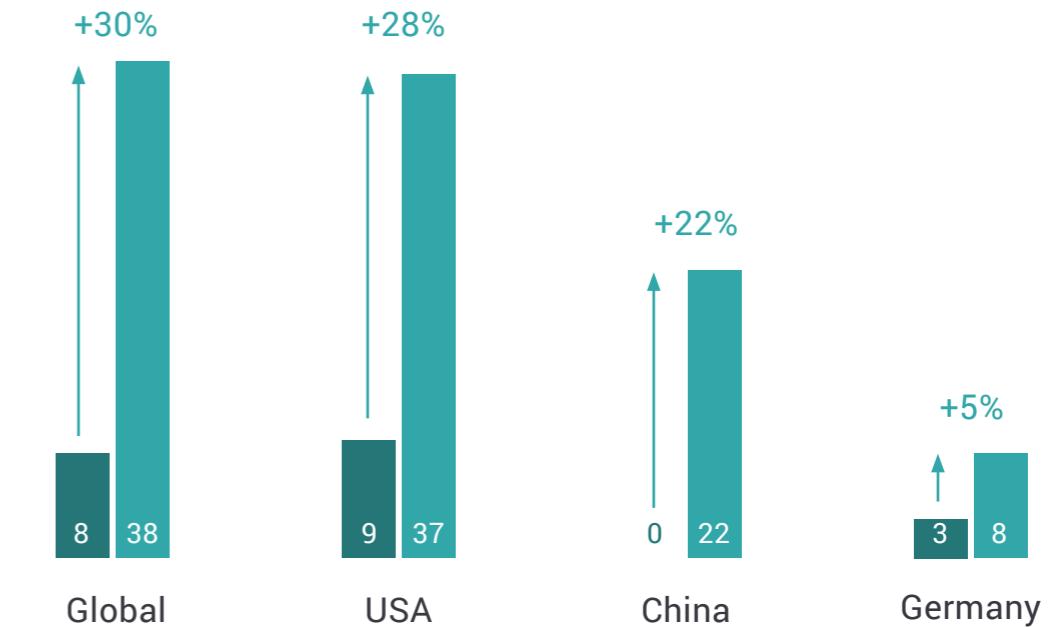

30
years

Average age of the five most valuable
companies

Sources: Business Insider (2019),
Finanzen100 (2019), Südkurier (2019),
Corporate websites (2019)

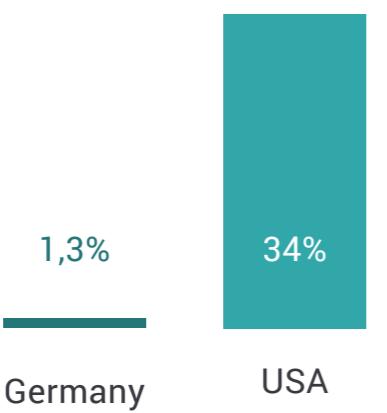

» Germany does not have enough large technology companies

Share of technology companies with a market capitalization of over 100 billions of USD as a percentage of the market capitalization of the 50 most valuable companies, 1998 and 2018

Source: McKinsey (2018)

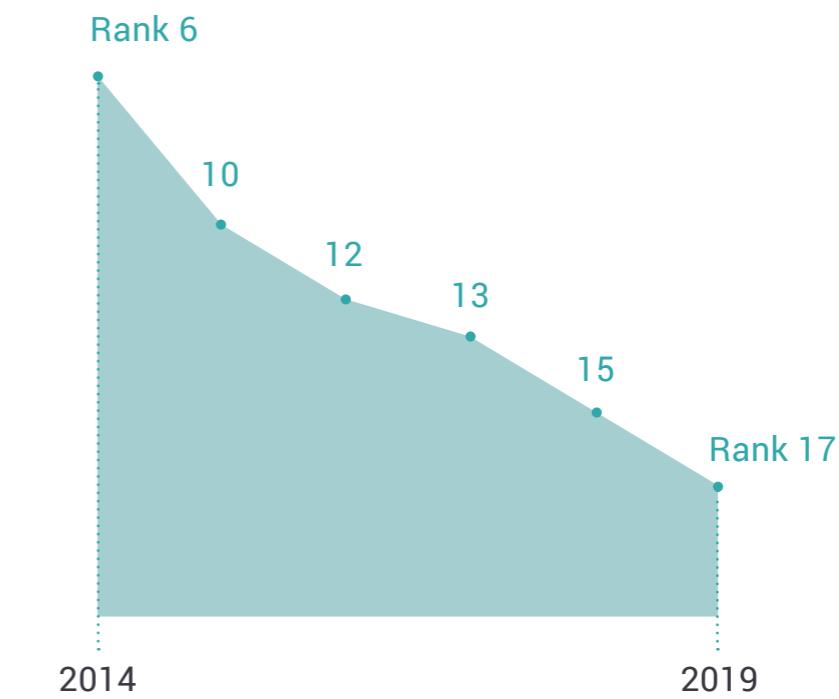

» Too few innovative start-ups modernize the German economy

Percentage of GDP accounted for by enterprises that have been financed with venture capital since 1995

Source: Handelsblatt (2019)

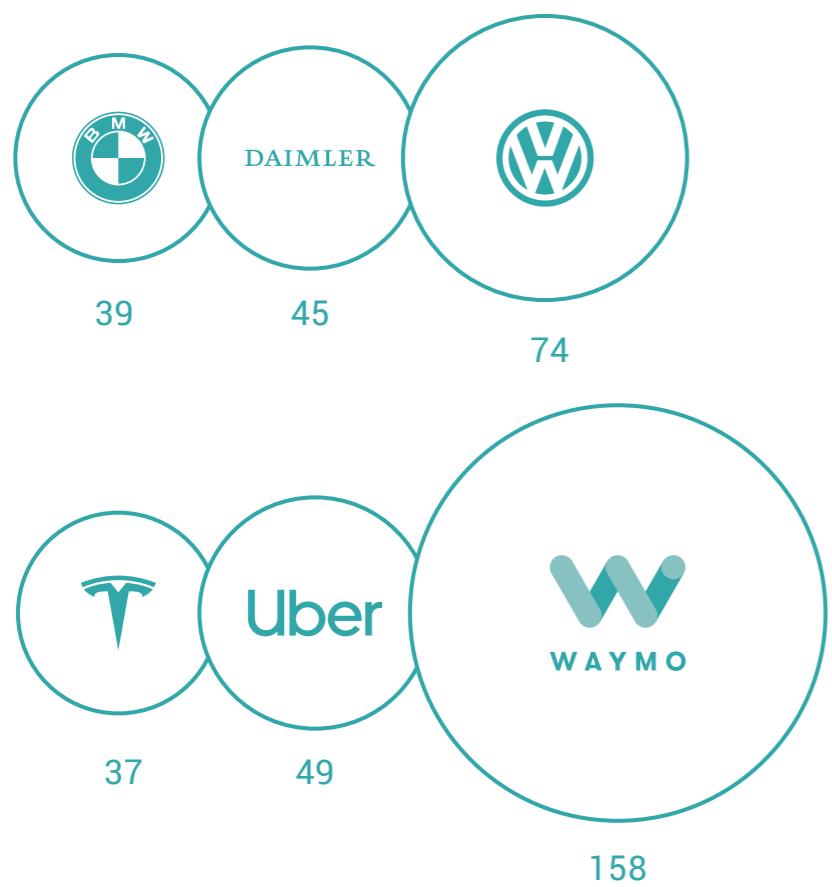

» Germany is losing competitiveness

Rank of Germany in the „IMD World Competitiveness Ranking“

Source: IMD (2019)

» German companies are facing tough new competition, even in their strongest industries

(Estimated) market value of German and American mobility companies in billions of euros

Sources: Finanzen.net (2019), Forbes (2019)

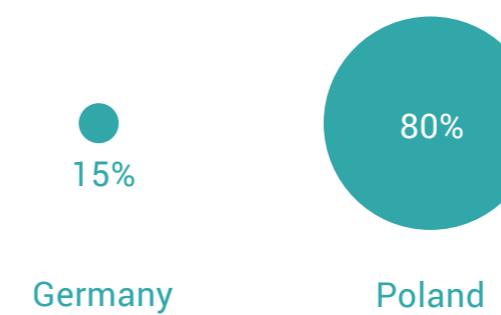

» Germany lags behind in digital innovation

Degree of digitization of public services (index)

Cashless payments (share of all purchases)

Sources: European Commission (2017), WELT (2019)

» Germany lags behind in future technologies

Share of fiber-optics of all broadband connections

Number of most powerful supercomputers

Investments in quantum computers in billions of USD

Sources: Statista (2019), Heise (2019), Rheinische Post (2018)

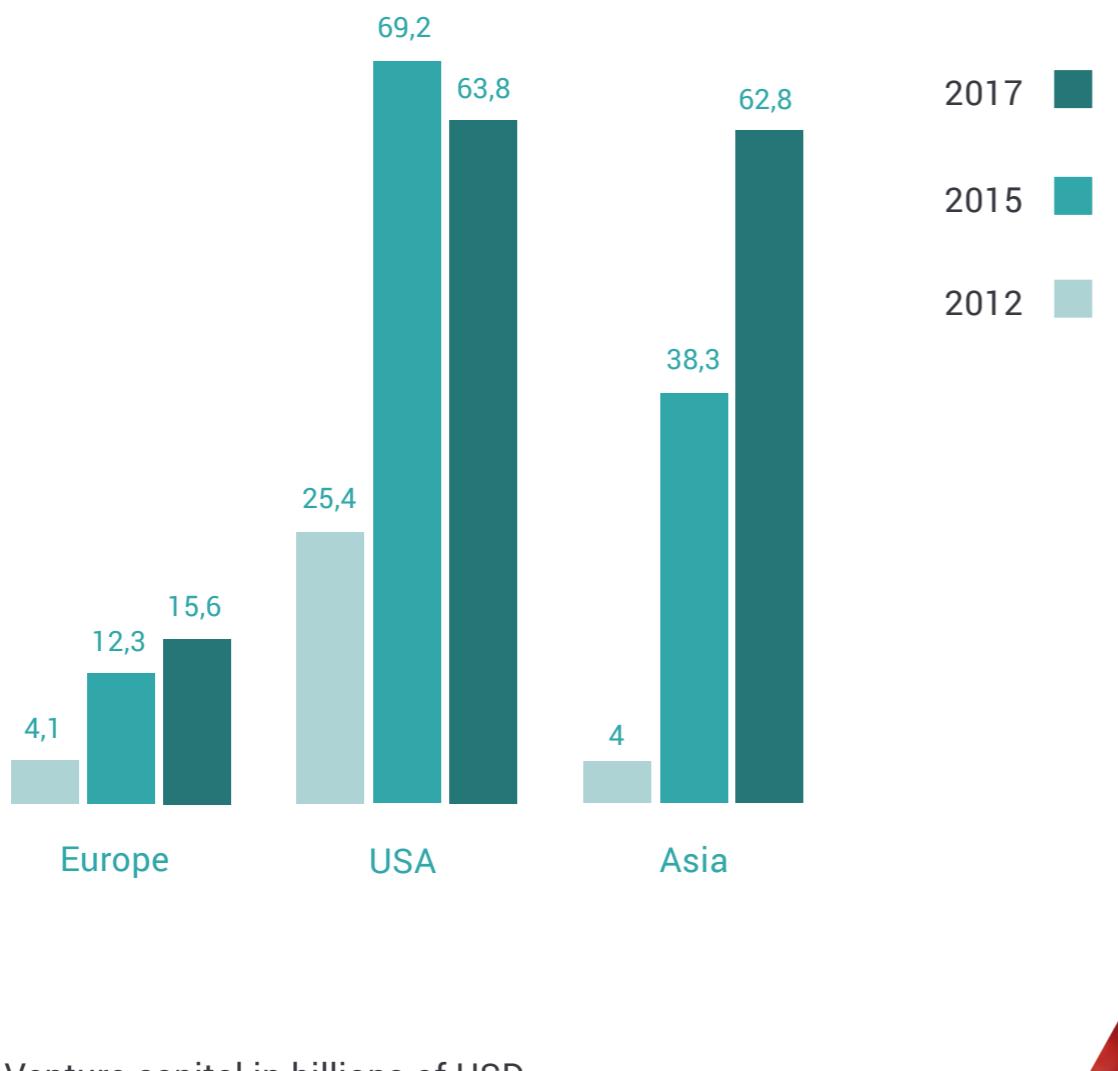

» Compared to China, Germany is investing little in artificial intelligence

Announced investments in artificial intelligence per year in billions of USD

Sources: BMWI (2018), Heise, Netzwoche (2018)

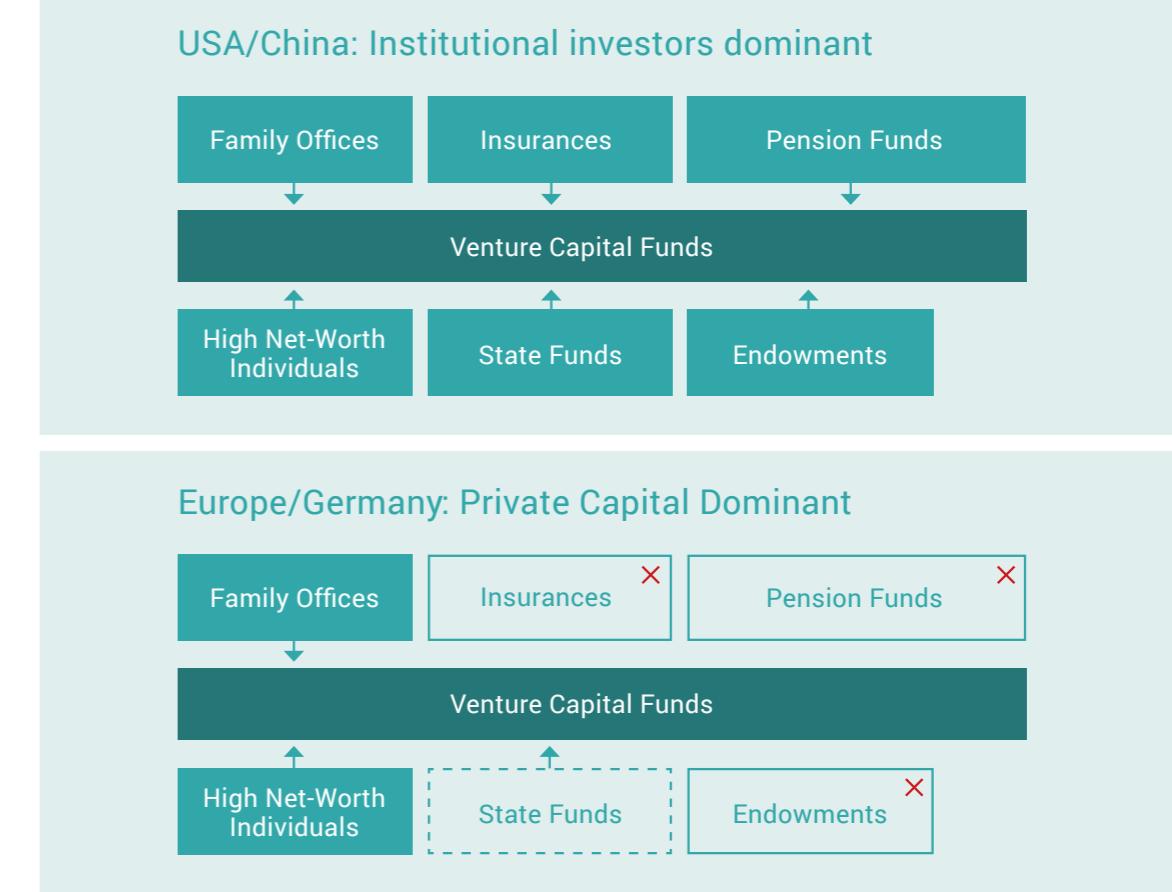

» Europe does not invest enough in venture capital

Source: Roland Berger (2018)

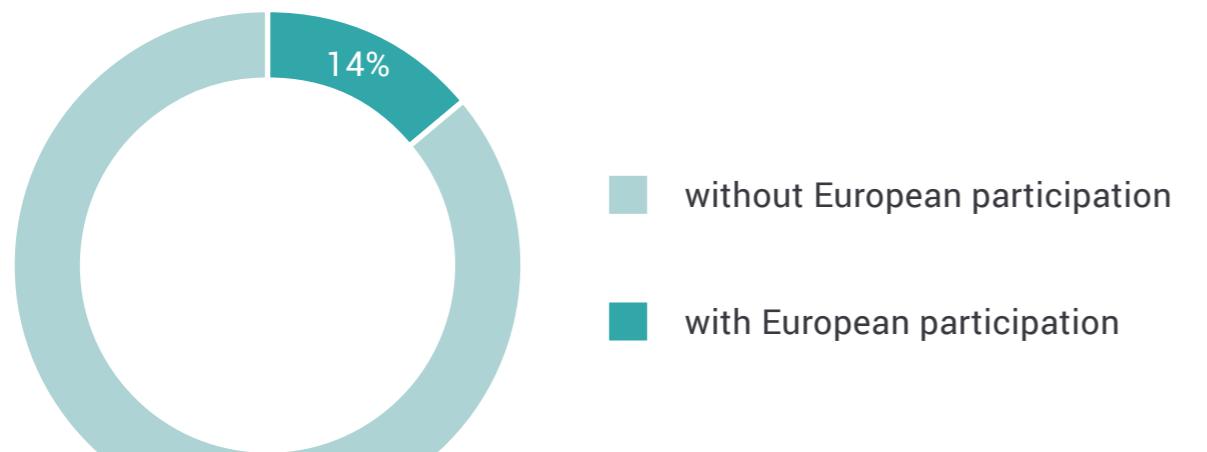

» Venture capital funds in Europe are not financed by a broad group of institutional investors

Overview of main sources of venture capital

Source: Lakestar (2019)

» The share of European investors in large international funding rounds is small

Share of European funding rounds over 10 millions of euros with and without European participation

Source: Handelsblatt (2019)

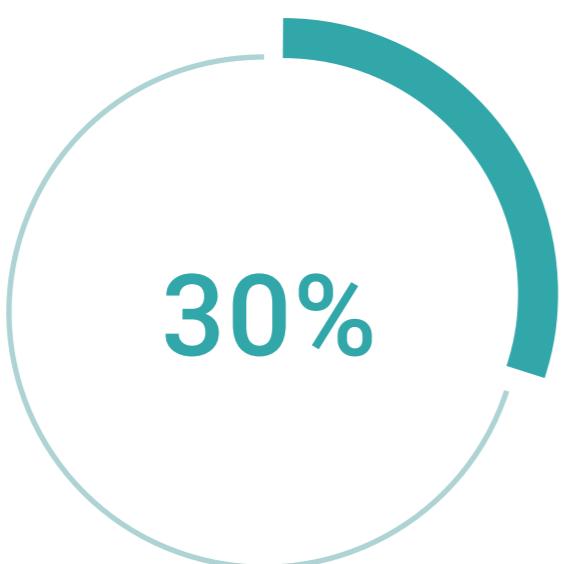

» There is only one German company in the global top ten for the highest R&D expenditures

Amazon.com (USA)	24,442	+27%
Alphabet (USA)	18,154	+29%
Samsung Electronics (KOR)	14,361	+11%
Microsoft (USA)	12,481	+13%
Volkswagen (DE)	12,116	+4%
Apple (USA)	12,066	+23%
Intel (USA)	11,479	+4%
Roche (CH)	10,473	+7%
Johnson & Johnson (USA)	9,133	+2%
AbbVie (USA)	8,755	+106%

Research & development (R&D) expenditures
2018 in millions of euros, development in
comparison to 2017

Source: EY (2019)

- » Only a few small and medium-sized companies approach digitization in a comprehensive way

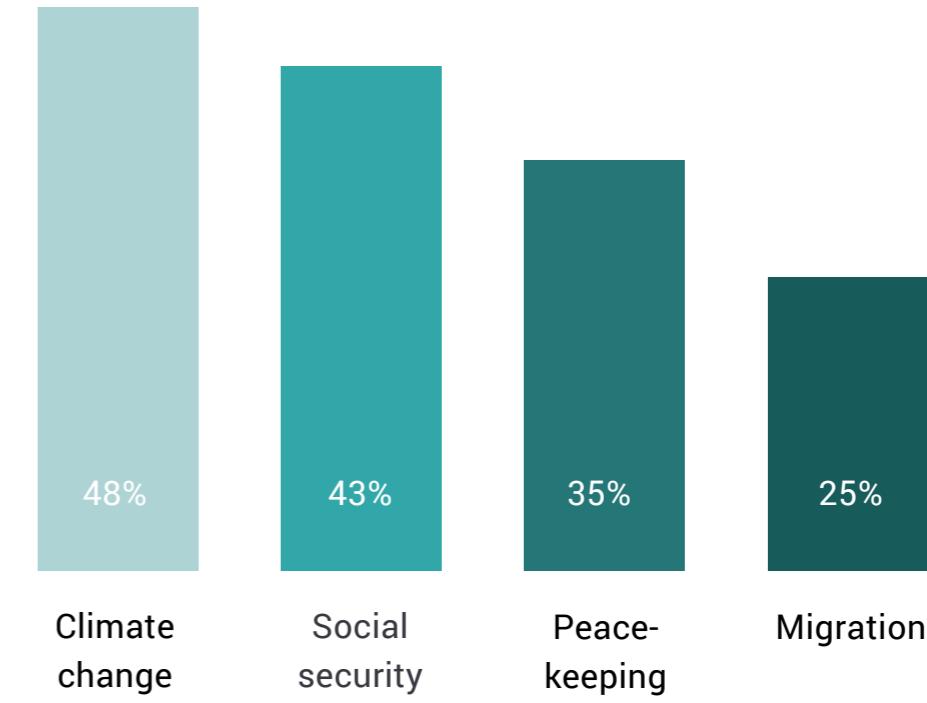

Share of small and medium-sized companies
with completed digitization projects

Source: KfW (2019)

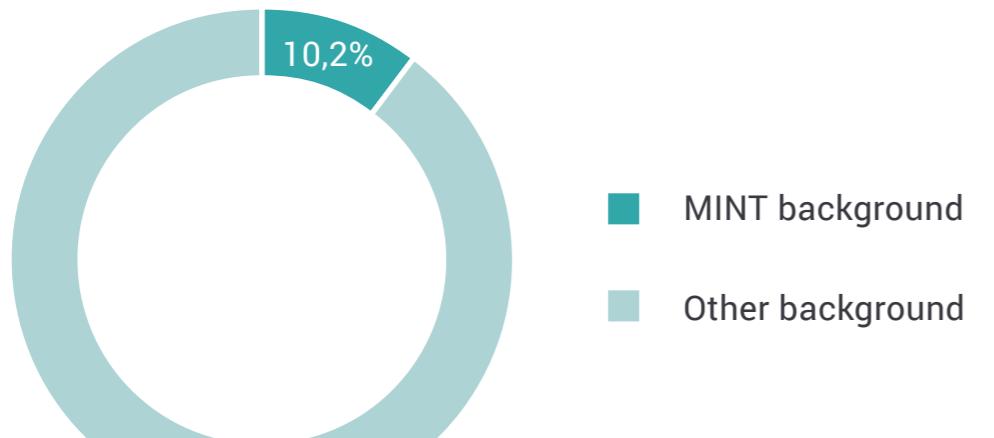

» Digitization does not play a role in the public and political debate

Overview of the topics that were key for German voters in the 2019 European election

Source: NTV (2019)

» Only a few politicians in Germany have technological or scientific backgrounds

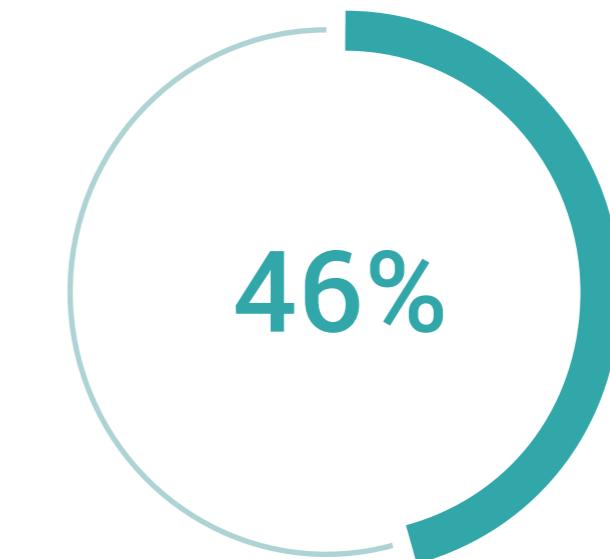

Share of German MPs with and without a MINT background (degree in mathematics, informatics, natural sciences and technology)

Source: [Bundestag.de](https://www.bundestag.de) (2019)

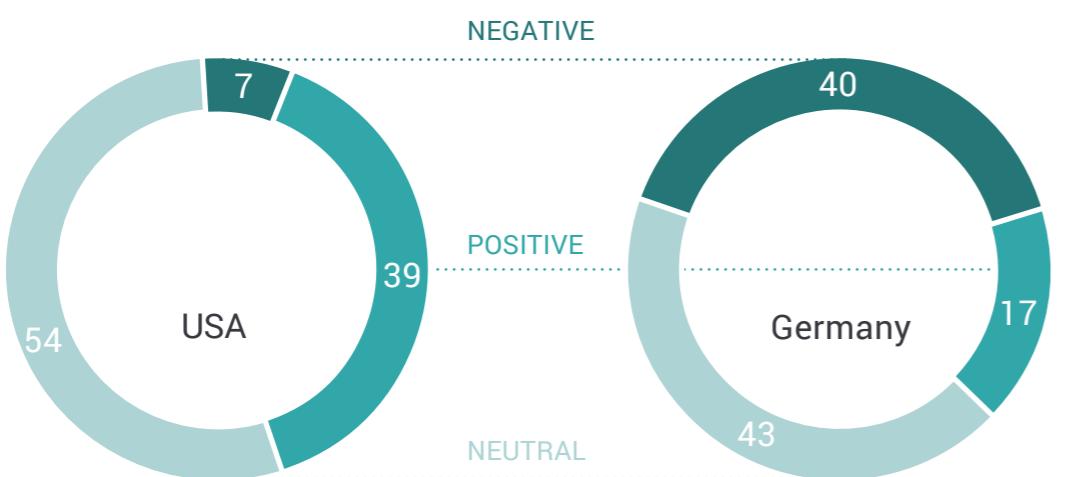

» The German public does not believe in the benefits of digitization

Percentage of the German population that expects life to improve substantially as a result of digitization

Source: Friedrich-Ebert-Stiftung (2019)

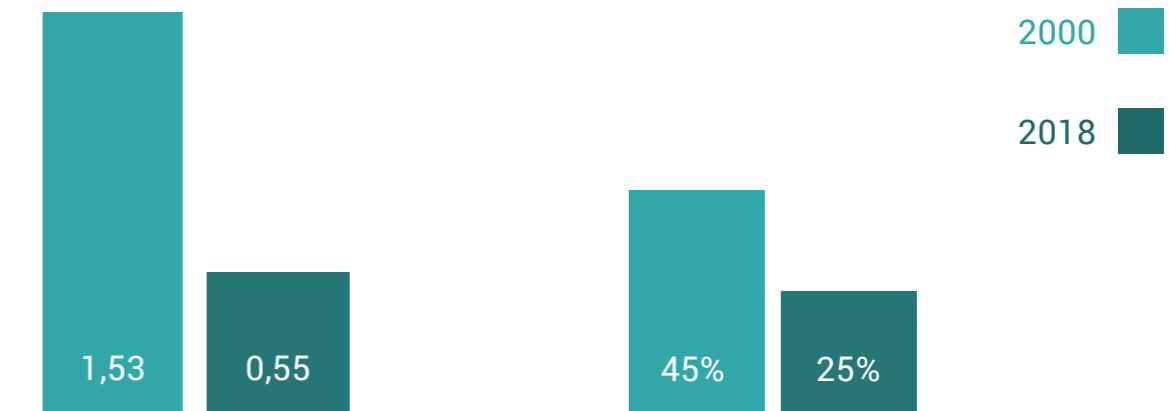

- » German media reports about founders are comparatively negative

Share of media coverage of start-ups (in %),
2018

Source: McKinsey (2018)

» Things look dim for a new start-up era in Germany

Sources: FAZ (2019), KfW (2006, 2019)

» European Center for Digital Competitiveness:

BY ESCP EUROPE BUSINESS SCHOOL

The European Center for Digital Competitiveness was founded at ESCP Europe Business School in Berlin with the goal of bringing digital competitiveness to the political and public debate, where it currently only plays a minor role.

Given the digital revolution that our economy and society currently face, digital competitiveness must take center stage in debates to secure our prosperity for the future.

Similarly, in this increasingly dynamic environment we want to support the initiative to position Europe as a global leader for the responsible application of technology for the benefit of society.

» About ESCP Europe Business School

ESCP Europe was founded in 1819 and is the first and oldest business school in the world. Ever since, it has been training managers and entrepreneurs. ESCP Europe Business School now offers Bachelor and Master programs as well as MBA, Executive MBA and PhD programs and executive education seminars.

With its multi-campus model in Berlin, London, Madrid, Paris, Turin and Warsaw, which has been in existence since 1973, ESCP Europe actively lives and promotes the European idea. Every year, more than 6,000 students complete their studies at the Business School, and more than 5,000 managers and executives take part in seminars and education programs. They all come from 120 different countries.

In Germany, ESCP Europe Berlin is a scientific university recognized by the state. As such, it can award degrees, including doctorates. ESCP Europe Berlin is the first university in Germany to be recognized by all three major international university accreditation agencies : AACSB, EFMD (EQUIS) and AMBA. ESCP Europe is among the 1% of business schools in the world that have the so-called „Triple Crown“. The success of the university is also reflected in the international FT European Business School Ranking, where ESCP Europe regularly occupies top positions..
